

ulrich medical® Discectomy Set

## uVedis™ – the unique discectomy set for anterior spinal surgery

8 good reasons for uVedis™

### uVedis™...

1. is a compact instrument set for **anterior lumbar discectomy** (fusion/non-fusion)
2. contains **long versions** of all of the necessary instruments, up to 430 mm
3. is best suited for use in **obese patients**
4. stands for **visible cleanliness** thanks to clean wave® punches and rongeurs
5. instruments have longer handles for **secure guidance**
6. instruments stand for **longevity** thanks to handles made of high-performance plastic
7. instruments have fine **working ends** and a **stable shaft**
8. **reduces expenses** through efficient instrument usage

The ulrich medical® PLUS:

- + Better reconditioning in the autoclave for better hygiene
- + Reduced weight and smooth movement

ulrich medical® Discectomy Set

## uVedis™ – the solution for anterior spinal surgery

**30** seconds to sum it all up

### uVedis™...

the unique discectomy set for anterior spinal surgery supports the surgeon's work with an **extra-long, highly functional instrument set**.

A special focus is on the smooth movement, secure instrument guidance and reduction in weight, all made possible by the use of **high-performance**

**materials** and a perfect design. clean wave® punches and rongeurs feature **optimal safety with visible cleanliness** and thus greatly facilitate the processing of the uVedis™ set.

The selection of the complete set includes only commonly used instruments, thus keeping **investment costs low**. At the same time, process costs and storage costs are reduced to a minimum.

**6** things that make up our service
